M16: matched Native versus Repeated control experiment
Multicast10, m20
Offer-to-last-tail latency (ns)
Delivered copies (Mflit/s/port)
Energy / original event (nJ)
All-multicast, m10
Native
Repeated
Three seeds; 100 warm-up + 1,000 measured original transactions. Separate from full scans.
Energy: reported synthesis estimates, with PT/library model limitations retained.
